

Provides the best arch support to keep your body aligned. You can customize any type of shoe to be supportive to maximize efficiency. If you need maximum support for skiing, skating, running, walking or a long vacation day, then the Rigid model is for you. If your feet are sensitive and need additional comfort, then the Flex model is best. Purchase sport-specific shoes with removable insoles to get the best benefit from Moszkitto Footbeds.

Custom Fit Chart

Three Easy Steps

Using a ruler you can measure your Arch and Heel to determine your size.

1. Shoe Size

2. Heel Width

3. Arch Height

-  = Available in Rigid
-  = Available in Flex
